Atea Enrollment Service

Flere og flere får øjnene op for fordelene ved automatisk enrollment - herunder automatisk konfiguration af nyt udstyr, hvad enten det er smartphones, tablets, computere, stregkodescannere eller andet udstyr, der understøtter den digitale udrulning. Atea kan tilbyde automatisk registrering i alle fem enrollment-systemer på markedet.

Når først automatisk registrering er aftalt, registrerer vi udstyret, når det afsendes og ingen skal huske på det fra gang til gang. Ateas eSHOP og ordresystemer er direkte koblet sammen med enrollment-systemerne, hvilket sikrer øjeblikkelig enrollment ved afsendelse af udstyret.

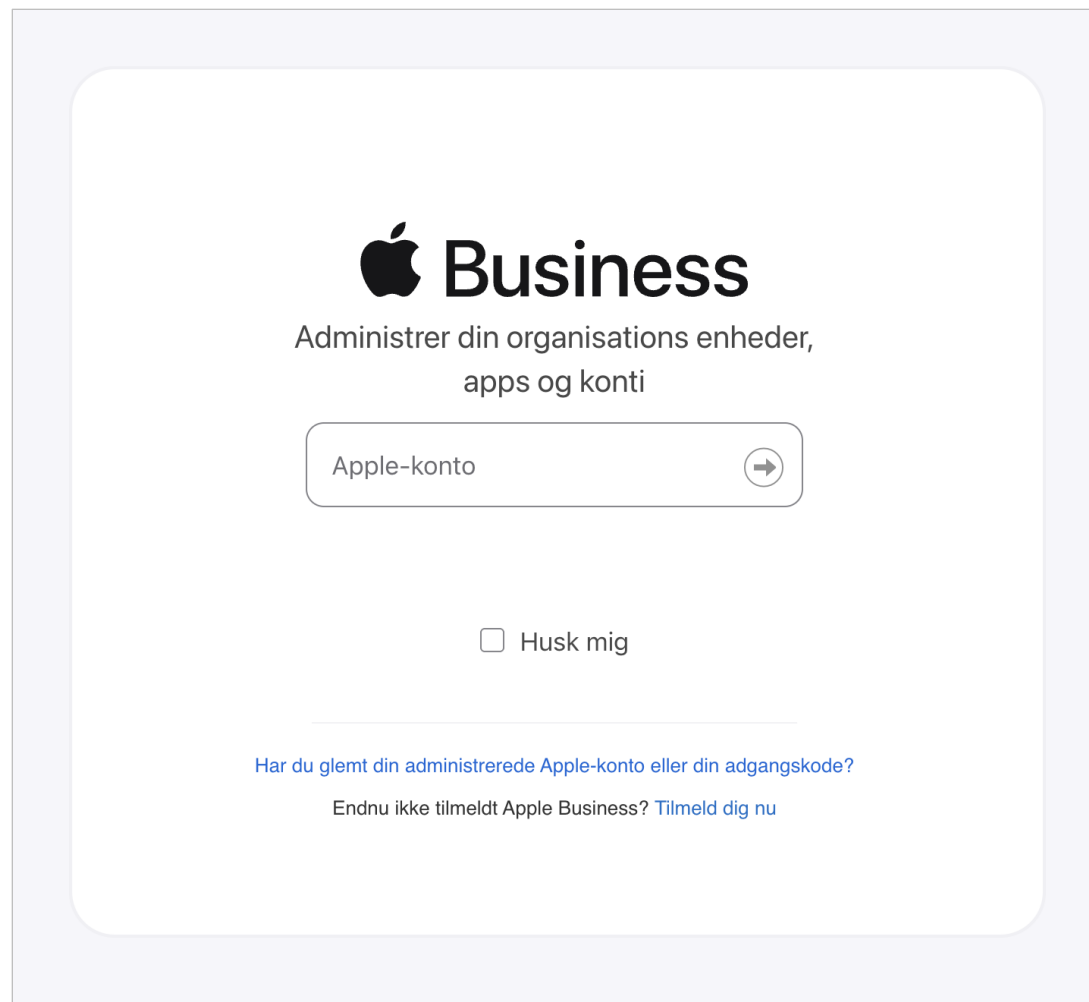

Herunder følger beskrivelse af de fem enrollment-systemer og hvordan de håndteres. Hvis du vil aftale automatisk tilmelding af fremtidige enheder, så skriv til os på de angivne adresser. Vi tilbyder også enrollment af udstyr, vi tidligere har leveret. Skriv til os for yderligere oplysninger.

Apple Device Enrollment (også kendt som DEP)

Apple Business/School Manager

The screenshot shows the Apple Business login interface. At the top, the Apple logo is followed by the word "Business". Below this, the text "Administrer din organisations enheder, apps og konti" is displayed. A login field contains the text "Apple-konto" and a right-pointing arrow icon. Below the field is a checkbox labeled "Husk mig". At the bottom, there are two links: "Har du glemt din administrerede Apple-konto eller din adgangskode?" and "Endnu ikke tilmeldt Apple Business? Tilmeld dig nu".
